

Table 1: Summary of wheat tariff and reference prices. Includes columns for publication dates (2 July 2024, 11 May 2021, 04 April 2024) and various price points (BASE PRICE, BASISPRYS, RSA INITIAL REFERENCE PRICE, etc.) with corresponding values in Rands.

Table 2: Table 2 - For calculation of import duty / Vir berekening van invoerdui

Table 2: Detailed table for calculating import duty. Columns include week numbers (1-14), US No2 HRW soft (USD), US No2 HRW soft (R), Base price, Deviation from base price, Exchange rate, Original price, Duty on wheat, Calculated tariff, and Published duty. The table contains multiple rows of data for each week.

1. Source: Euro - Grain Market Information. 2. 3-Week moving average price / 3-week suikende gemiddelde prys. 3. Base price: Usually the 3-week moving average price that triggered a change in the calculated tariff (Column 11). The moving average price is weighted against the base price. 4. Basisprys: Gewoonlik die suikende gemiddelde prys wat 'n verandering in die berekende tariff (Kolom 11) veroorsaak het. Die suikende gemiddelde prys word teen die basis prys gewogen.
