# FOREWORD: CHAIRPERSON

On behalf of the Board of Directors, I am pleased to present the Annual Report of the South African Grain Information Service NPC (SAGIS), for the 2020/21 financial year.

SAGIS has received an unqualified audit report for the 2020/21 financial year. Members, therefore, have the assurance that the necessary controls, policies and procedures are in place to safeguard the funds received from the various Trusts.

Not even a month into the new financial year, the country faced a full lock down due to the Covid-19 pandemic that, not only had a devastating impact on our personal lives, but on the whole world as such. The word 'lost' became a familiar term in so many ways – lives, jobs, freedom, etc. On this note, I wish to extend my sincere sympathy to everyone who had to deal with the loss of a family member, friend or colleague.

Even though this brought its own challenges, I am proud to report that in a record time all staff, with proper management and control systems in place, was set up and ready to continue working as an essential service.

It is, therefore, with appreciation that the Board of Directors congratulates management and staff for continuing to publish important and reliable data on time, contributing to the efficient working of the relevant markets and food security in very challenging times.

While the Covid pandemic has further exacerbated the already fragile economy, the agricultural sector (especially the grain and oilseeds industries) has been largely insulated due to the fact that it remained an essential service. Although not untouched due to other challenges, I believe that we will conquer and only grow stronger due to our resilience and ability to collaborate effectively.

The one thing we know when looking at historical data and history itself, is that better times always follow difficult times.

Thank you to the four Member Trusts of SAGIS for their continuous financial support during the 2020/21 financial year.

My sincere appreciation and thanks to all who have contributed to the performance of SAGIS over the past year, the co-workers for their continued confidence and co-operation, the Administrators, Directors, General Manager, his management team and all employees of SAGIS for their dedication and excellent service.

**Dr John Purchase**

The future existence of SAGIS totally depends on the existence and funding by the Trusts.

During the 2020/21 financial year, SAGIS was funded by the four Members according to the approved basis of calculation for subscription by the Annual General Meeting:

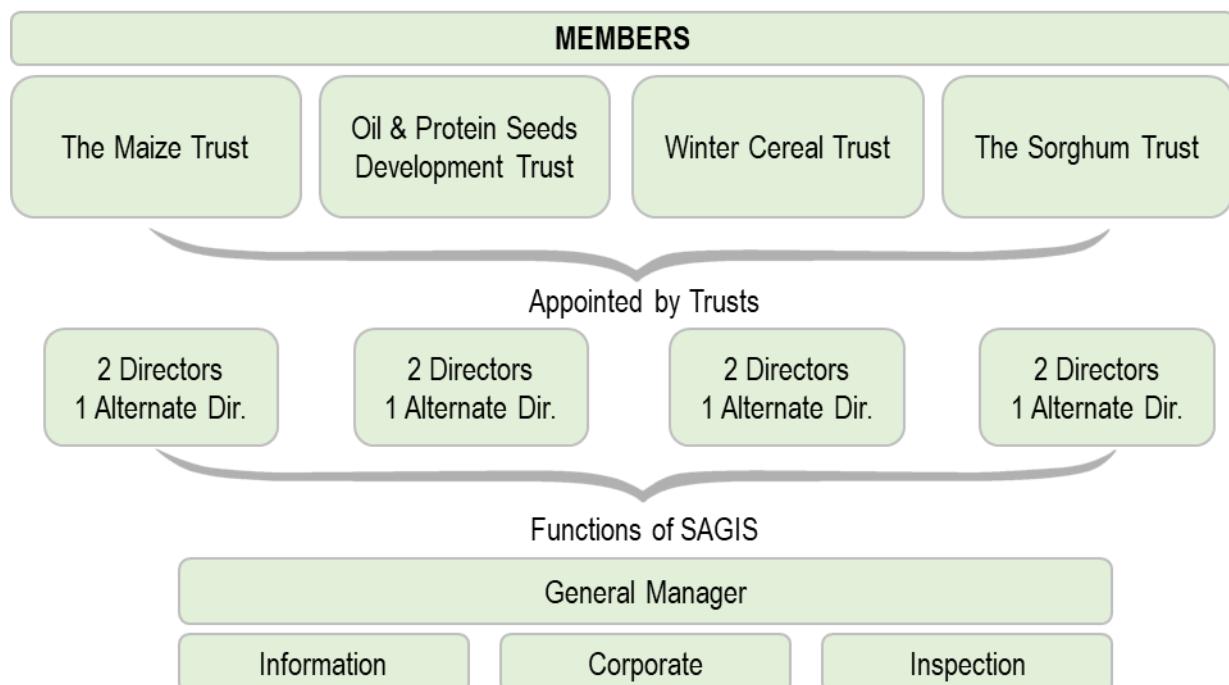

#### 1.3.1 Whole grain and Oilseeds: 2020/21 financial year

## 1.6 Human Resources

# CORE VALUES

## 2. Vision, Values, Main objectives and Information

Vision	Values	Main objective
SAGIS strives to be recognised nationally and internationally as the most reliable provider of market information related to grain and oilseeds in Southern Africa.	<ul style="list-style-type: none"><li>• Reliability</li><li>• Integrity</li><li>• Independence</li><li>• Confidence</li><li>• Professionalism</li><li>• Ability</li><li>• Stability</li><li>• Effectiveness</li><li>• Promptness</li></ul>	To collate, process, analyse and distribute timeous information relating to the grain and oil seed industries.

### 2.1 SAGIS information objective

To provide reliable information by:

- Releasing information to all role-players on the SAGIS website at 12:00 on pre-determined and approved publication dates. By doing so not give preferential treatment to anybody and to limit possible reaction on markets.
- Not allowing staff to discuss information, except the information on a specific return, with the parties directly involved in the transaction related to the movement declared on the return.
- Not making projections.
- Constantly finding ways to improve the quality of information, processes, systems and procedures
- Processing and evaluating information received for correctness and relevancy in order to ensure the reliability and trustworthiness of the information.
- Comparing the results, as far as possible with external sources, to evaluate the correctness and relevancy of the information.
- Treating each individual's information confidentially and to release information as agreed upon by the industry role-players.
- Not being involved in trading of grain and oilseeds.
- Remaining independent from any party submitting information to SAGIS. This includes any Director of SAGIS, Forum, industry association or decision-making body.
- Collecting information from all parties that are statutory compelled to register with SAGIS.

# ROLE OF SAGIS IN THE INFORMATION CHAIN

## 3. Importance and impact of SAGIS information / data

### Free market

- Government is not involved
- Needs of society automatically met
- Profit seeking role players will make more
- Competition keeps quality high
- Competition keeps prices low
- Competition & self-interest is an invisible hand that regulates the free market

### Business decisions

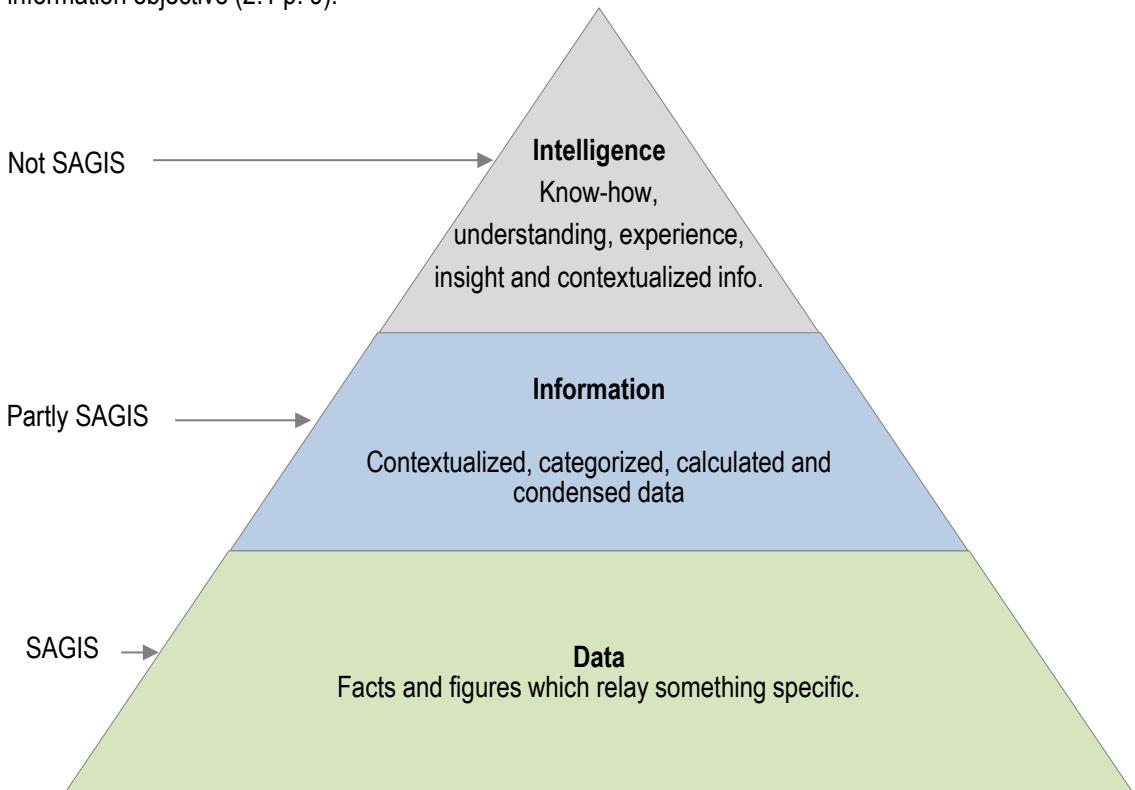

### Policy decisions

### 3.2 Life cycle of information

The following hierarchy shows the importance of the data supplied by SAGIS to the market because there are no emotions, benefits or preferences involved – only cold, hard facts. This confirms SAGIS' information objective (2.1 p. 9).

### 3.3 Users of SAGIS data / information

The users of SAGIS information can be categorised mainly into three sectors:

Primary producers	Traders / processors	Policy makers
<ul style="list-style-type: none"><li>▪ What to plant?</li><li>▪ Input management?</li><li>▪ How much to plant?</li><li>▪ When to market and how much?</li><li>▪ What prices can be expected?</li></ul>	<ul style="list-style-type: none"><li>▪ Availability of local products</li><li>▪ Imports / exports planning</li></ul>	<ul style="list-style-type: none"><li>▪ Trade agreements</li><li>▪ Food security</li><li>▪ Development of new producers</li></ul>

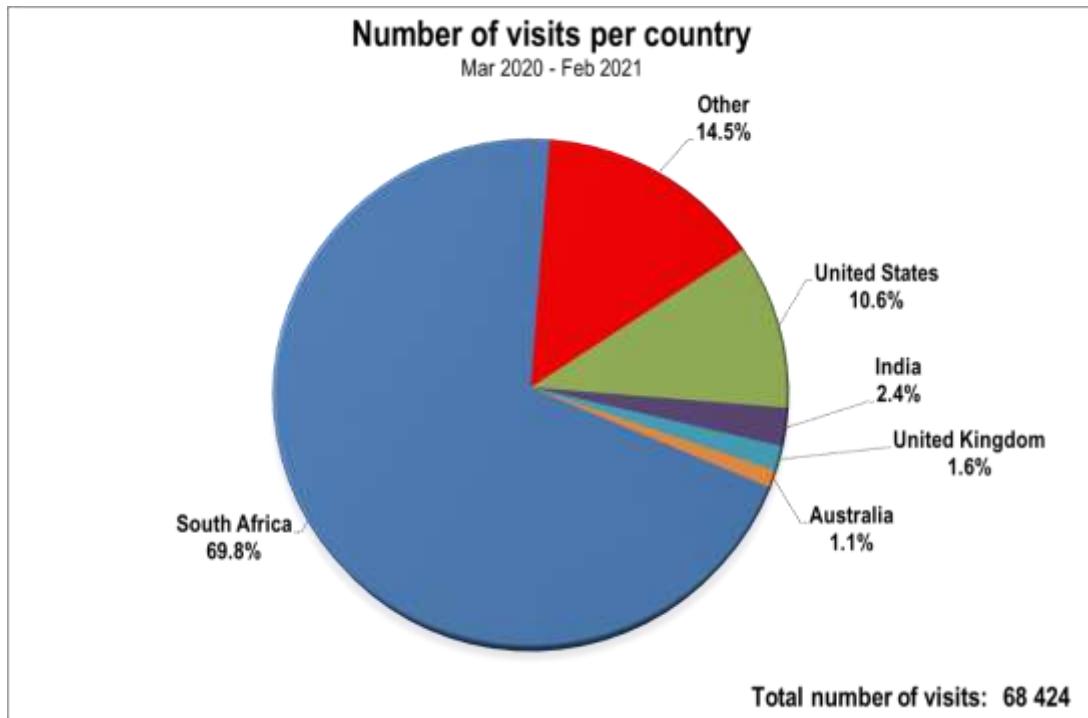

Data gaps make it difficult to see problems in policy making clearly and chart a course forward. Good data is, therefore, extremely important.

## **6.5 Cost of the information function**

The cost of SAGIS' information services, although this is only an indication, is calculated as follows:

**Note:** The cost per ton is also a function of the crop size.

## **6.6 Released information: Feedback from Forums**

The SAGIS information / data is discussed during the meetings of the industry and other forums. Forums are continuously requested to give feedback and suggestions for improvements on information needed. Feedback from forums indicated that they are satisfied with the information.

## **6.7 Inspection of wholegrain, oilseeds and products (Previous year in brackets)**

During the reporting period Inspection functions such as stocktaking, audits, new registrations and cancellations were done at 709 (899) premises across the country. The difference in the number of premises visited per year mainly change due to the fact that audit routes differs annually.

The Covid-19 lockdown and travel restriction impacted on the execution of inspections. During the period April and May it was not possible to perform physical inspections at all. In cases where it was not possible to carry out physical inspections, an attempt was made to electronically (conducted remotely) audit these co-workers.

Travel plans for inspectors were planned as cost effectively as possible. The average cost per premise visited was R738 (R738).

### **6.7.1 Stocktaking**

During the past twelve (12) month period, stock of grain and oilseeds in commercial storage structures at month end varied between 2.7 and 10.8 million tons. A total of 4 811 548 tons of grain and oilseeds were physically verified at 331 co-workers with 406 storage points.

The collection and analysis of data have long played an important role in enterprise-level corporations and organizations. But as humanity generates more than 2.5 quintillion bytes of data each day, it's never been easier for businesses of all sizes to collect, analyse, and interpret data into real, actionable insights.

Though data-driven decision-making has existed in business in one form or another for centuries, it's a truly modern phenomenon.

To the Members of SOUTH AFRICAN GRAIN INFORMATION SERVICE (NPC)

### Opinion

I have audited the annual financial statements of South African Grain Information Service NPC (the company) set out on pages 9 to 16, which comprise the statement of the financial position as at 28 February 2021, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, and the notes to the annual financial statements, including a summary of significant accounting policies.

In my opinion, the annual financial statements present fairly, in all material respects, the financial position of South African Grain Information Service NPC as at 28 February 2021, and its financial performance and cash flows for the year then ended in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa.

### Basis for Opinion

I conducted my audit in accordance with International Standards on Auditing. My responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Annual Financial Statements section of my report. I am independent of the company in accordance with the Independent Regulatory Board for Auditors' Code of Professional Conduct for Registered Auditors (IRBA Code) and other independence requirements applicable to performing audits of annual financial statements in South Africa. I have fulfilled my other ethical responsibilities in accordance with the IRBA Code and in accordance with other ethical requirements applicable to performing audits in South Africa. The IRBA Code is consistent with the corresponding sections of the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards). I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my opinion.

### Other Information

The Directors are responsible for the other information. The other information comprises the information included in the document titled "South African Grain Information Service NPC annual financial statements for the year ended 28 February 2021 ", which includes the Director's Report as required by the Companies Act of South Africa and the supplementary information, which I obtained prior to the date of this report, and the Annual Report, which is expected to be made available to me after that date. The other information does not include the annual financial statements and my auditor's report thereon.

My opinion on the annual financial statements does not cover the other information and I do not and will not express an audit opinion or any form of assurance conclusion thereon.

In connection with my audit of the annual financial statements, my responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the annual financial statements or my knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work I have performed on the other information obtained prior to the date of this auditor's report, I conclude that there is a material misstatement of this other information, I am required to report that fact. I have nothing to report in this regard.

## **Independent Auditor's Report**

### **Responsibilities of the Directors for the Annual Financial Statements**

The directors are responsible for the preparation and fair presentation of the annual financial statements in accordance with the International Financial Reporting Standard for Small and Medium-sized Entities and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine are necessary to enable the preparation of annual financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the annual financial statements, the directors are responsible for assessing the company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the company or to cease operations, or have no realistic alternative but to do so.

### **Auditor's Responsibilities for the Audit of the Annual Financial Statements**

My objectives are to obtain reasonable assurance about whether the annual financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these annual financial statements.

As part of an audit in accordance with International Standards on Auditing, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- Identify and assess the risks of material misstatement of the annual financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the director's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the company's ability to continue as a going concern. If I conclude that a material uncertainty exists, I am required to draw attention in my auditor's report to the related disclosures in the annual financial statements or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of my auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the annual financial statements, including the disclosures, and whether the annual financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

I communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that I identify during my audit.
